

RESONANCE

November-December 2018
School of the Natural Order

*The Lesson-The Journey of the Three Wise Men
As Given by Vitvan*

"Christ born in Consciousness" "...When the mental, emotional and physical states have made the complete sacrifice before Intuition, they have become Wise Men." "...When the triune principles of human nature have rendered their complete offering, when reason, desire and action are ready to follow Intuition with no opposition, you will be watched over and guarded by invisible powers." "...Then the principles of thought, desire and action will be used to carry out the direction given you by the Higher Intelligences through your faculty of Intuition." "...Preserve yourself until the day when you are strong enough to stand before All as a Light Bearer." ♥

-Excerpts from 'The Journey of the Three Wise Men'

**HAPPY HOLIDAY GREETINGS
TO YOU AND YOURS!**

Reflections of Consciousness....

Individual Expressions of Self

This years' RESONANCE letter contributions are from SNO students far and wide. The teachings are reaching out 'beyond borders' and touching those open and inquiring.

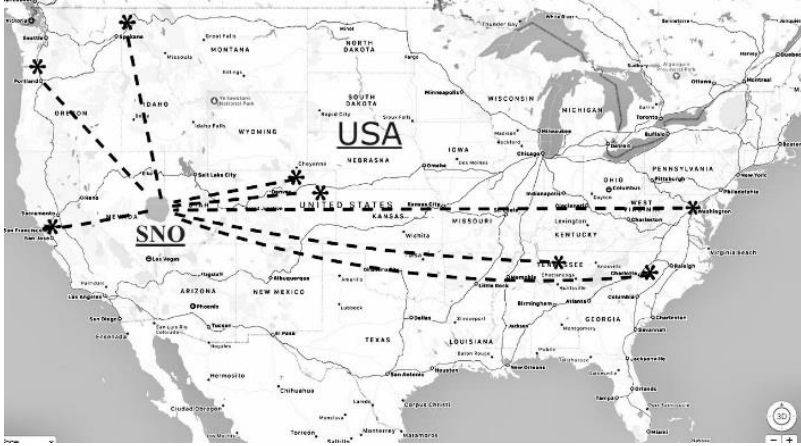

Each of these letters represent our individual states and reflection of that state. As we strive to polarize to the highest and best level of our respective selves, consciousness eventually expands to reflect greater and greater Light. As Vitvan says, "Be at Peace. That emergent Power has brought you through the eons, out of darkness, up to the point where you can ask a question. It is not going to drop you now after bringing you to where you can ask the question. Be at Peace. It IS.""

In the meantime, there is much Joy Song to be had along the way, even as we continue to "chop wood, carry water". Blessings ♥

Laura Rankin

Internet Video Conferencing

Over the last few years, the Internet and its' many communication platforms has become a valuable tool for the School of the Natural Order. It started a while back with the Sunday classes being held in Denver by the School of the Natural Order Colorado, using "Skype". Skype proved to be unreliable for our purposes and Peter Clark brought in the idea of checking out "Zoom". Soon after the implementation of Zoom, the attendance started to grow and another Wednesday class started.. Soon after, Corry Dodson started a 'Zoom' study group on every other Monday night, held in Idaho.

Leo Weese and Eric Schneider did the initial groundwork for the set-up of the program and it turned out to be just what we were looking for! This has been a wonderful format for internet classes and study groups, utilizing audio recordings along with reading of lessons, to include students from all around the U.S., as well as overseas. Classes have been attended by a diversity of students, new and old, from the U.S. states of Nevada, California, Colorado, Oregon, Idaho, Virginia, Tennessee, North Carolina, as well as Canada and New Zealand!! The Zoom classes have been a great way to make new friends, study and disseminate the Teachings, and stay in touch with students that you may have only met once at a seminar or through the SNO Facebook page. This Zoom Internet forum is also now being used for SNO Board meeting's and other pertinent meetings held at the school headquarters in Nevada.

Classes & Study Groups

Every other Sunday at 10:00 am MT, hosted by Eric Schneider in Denver:

This is a study group attended by 6 to 8 students on a regular bases, and up to as many as 12. We are just finishing up "Practices In Individual Development", an audio recording of a Vitvan series. In the next few classes we will be discussing what lesson series to choose next.

Every other Monday at 6:30 pm PT, hosted by Corry Dodson in Idaho:

Corry Dodson hosts a study group, reading from "Expanding States of Self Awareness". There is quite a bit of discussion in this class, opportunity to share and express, as well as inquiry for deeper understanding. This class is for everyone, to include students learning to teach, and can easily be joined during part of the lesson.

Every Wednesday at 7:00 pm PT, hosted by Vic & Leo Weese at SNO Nevada:

This is an on-going class on General Semantics, specifically from the book "The Natural Order Process", Volume I. Currently, the group is studying from the booklet "Clear Thinking". This class has included audio recordings from Dr. John Gozzi and the classes he facilitated in Colorado. WARNING! Reading and discussion about the application of 'Consciousness of Abstracting' spontaneously happens!

Please feel free to join in on these internet meetings. Zoom is an easy format to use and any of the hosts can walk you through the set-up and protocol of the classes. (Most classes start out with Breathwork, AUM'ing, Mantra and Meditation).

To find out more, please contact the individual host(s) regarding interested class(es) at sno@sno.org to receive your email invite.

There is a need to upgrade the internet connectivity at the SNO headquarters in Nevada and to keep the Zoom classes growing. Please contribute to this expanding format for sharing with fellow students around the earth.

Thanks,
Steve Anderegg

A MESSAGE FROM OUR CURRENT RESIDENT 'TECHIE'...

Happy New Year to All!

This New Year brings some unique changes to SNO's internet. Our ISP (Internet Service Provider) has requested we upgrade our radio link which connects the school to a fiber cable 15 miles across the desert. Our radios have become increasingly disrupted by RF interference and internet traffic from other carriers and radios on the same frequency. Due to signal degradation throughout the valley, the school is hoping to purchase its own private frequency from the FCC. This would enable the school to obtain a clear, clean frequency which would support a stable high-speed internet and the continuation of our outreach classes.

Once the private frequency is secured, the next step is to purchase the dish and radios that support that frequency. The package the provider is proposing will cost the school approximately 8k. And so, again we reach out and ask for donations to support this purchase. This is so do-able! Please know your donations are tax deductible, and of course, always go towards the benefit of the school. This is the creating process at its best!

Thank you,
Robert Cozzie

Let Each One Love His Destiny

"The more that we can develop the understanding of the Fundamentals of Existence, the more meaningful our own life becomes to our respective selves, and the greater service we can render to others." "...The new cycle upon which we have already entered will be characterized by synthesis." "...We must understand the whole in order to understand the particular. That is the synthesis." "...To understand yourself, you must have an understanding of the whole cosmic process, because each one of us, essentially, intrinsically, is integrated in that whole cosmic process. No man lives to himself alone. But now, everything in every part of the world has an influence upon you and me." "...It is a creating process--everywhere."

"The purpose of this classwork that we are now opening is self-development, understanding of the whole overall cosmic process, and preparation for service..." "...It is a non-Aristotelian doctrine or teaching and it is non-metaphysical. There is no occultism and no mysticism. That all belongs to the past. It does not belong in the future. I hope the intent and the purpose is clear."

-Vitvan ♥ Expanding States of Self-Awareness

In the name of the Father,
In the name of the Mother,
In the name of the Son.
May the Blessed Ones lead us
From darkness into Light.
