Summer 2022

**The Lesson**

Our lesson offering is from Vitvan's 1952 series on *Studies in Psychotherapy*. In this Lesson One, Vitvan impresses the importance of orientation to this world as an energy system, of which assists in the building of a unified field of group consciousness. The force and influence of the group field will eventually nurture and support us along our individualizing path.

Sincere gratitude and recognition go out to all who tirelessly give of themselves in efforts to maintain, uplift and expand the School of the Natural Order and its teachings. Profound thanks for the consistent monthly donations, the dedicated movement forward with new and interesting online classes, and the organized and creative path of the student group. Appreciation goes to those students who take the time and expense to travel to the Nevada headquarters, often investing in "sweat labor" in the care of what needs attention. Immense gratitude and admiration to those students who persevere in maintaining the harmony and daily workings here at Home Farm. Bright Blessings to each!

May the Peace and the Power of the Infinite Spirit  
Which passes all understanding  
Hold us and keep us  
In the Love of the Christed-consciousness  
While we are seemingly separated  
One from another.
