

The School of the Natural Order
RESONANCE
November-December 2019

The Lesson

In this lesson, Vitvan speaks about conscious cultivation of creativity as integral to functioning in the new cycle. “To develop, to cultivate, and bring out that creative power from its potential into actual, functional ability delineates the work that lies ahead of each and every one, particularly the treaders of the path.” Vitvan offers insight on “getting beyond” image identification, paying attention to the functions in the psyche, bringing the forces of the psychic nature up to a higher level, and *consciously* employing images. Enjoy!

We are pleased to announce the upcoming Summer Seminar 2020 at The School of the Natural Order headquarters in Baker, Nevada. Next year’s seminar is titled **Breaking Objective Identity - Practices for Expanding Self-Awareness**. Please see *the attached page* for all the wonderful details.

Yes! We’re holding another raffle for the SNO Summer Seminar 2020. As we received such positive input for the last one, we thought it was definitely worth repeating.

In keeping with the intention to update and improve our facilities, the proceeds for this raffle will be used to refresh the school’s communal dining area in the main house. Persons offering donations of \$100 or more will be eligible for free seminar registration, accommodations and meals. (Travel expenses would be the individual’s responsibility.) Visit the donations page on our website, sno@sno.org and utilize the **Building Fund** tab for this drawing. Please designate the donation to the ‘Main House’ upgrade.

Nutritious meals, comfortable accommodations *and* informative classes! We would love to see you here, and look forward to your arrival.

The School of the Natural Order is a 501(c)(3) non-profit organization.

The school is happy to inform you that our new internet equipment has been installed! The new dish is designed to provide stable internet speeds, especially during harsh winter weather. As well, the service provider will be managing our internet service via their site, which means they will know immediately should a problem arise.

So when you come to visit, you will be able to swiftly reach out and connect to whomever, wherever, whenever! Yeah!
