

*Summer
Seminar
Joy*

Dear School of the Natural Order Students,

Thank you so much for the welcome and acceptance that I received when I attended this year's summer seminar. I had not been back to the school for over thirty years and I was a bit anxious about how I would be accepted and received. I shouldn't have been.

The warm welcome that met me was much more than I could have anticipated. The only present member that I have known for many years is Marj Coffman, and I was very pleased to see her. The school has always held a special place in my heart, and so do all of you. I promised to return and I am looking forward to it. Thank you for the warm welcome home.

Nancy Taylor
