

Greetings,

We hope all is well with you and your families.

In preparation for our 2021 SNO Seminar, the seminar committee extends to students old and new an inquiry as to what kinds of activities you would like to participate in at the next summer seminar. Our plan is for an in-person seminar at Home Farm in late July or early August of 2021.

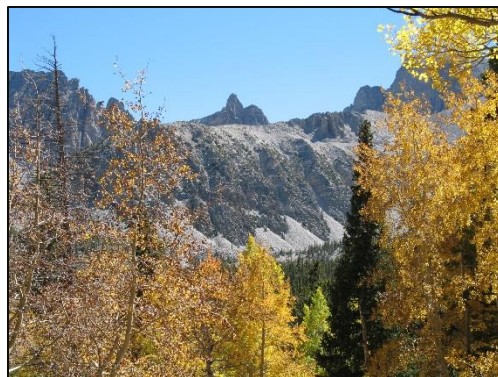

What topics or practices do you wish covered? Breath work, meditations, yoga, etc.? Reviewing the map on how the psychic nature functions? Examining some area of modern science that reflects the wisdom teachings? How to realize group harmony? Want to have a particular lesson in the school's teachings addressed? Please let us know what interests you!

Join together with fellow students wanting to share with you the many experiences and insights from their continuing travels on the path.

Thank you,

SNO Seminar Committee
