RESONANCE

GROWTH AND DEVELOPMENT

July, 2024

“Grow as a flower grows, and as it unfolds its beauty to the light,” once said an angel who took human form. Meaning, of course, that which all perceivers of the natural order process understand; no one can help ‘humanity’, for there is no referent for the word “humanity”; there are only individual persons. (Try to find or contact ‘humanity’ and you will meet John Doe, Richard Roe, etc. etc.) Each for himself and in his own psycho-logical time-rhythm, will grow as the flower grows – from the within out; i.e., in response to creating forces, intrinsically motivating expanding consciousness.

But, like the life-forces of a plant are stimulated by the light, warmth, and radiant energies received from the sun, so each person –when ready- will experience an urge to growth if “suns” (sons) are contactable in their respective orbital courses; i.e., when the student is ready, a stimulating contact will be found, for when genuinely ready and raying out “the silent message” one is not left alone. We are guided by invisible helpers, provided that, respectively we are deserving of such guidance.

“It is up to each individual to develop himself. There is nothing extraneous to him that is going to develop him. Nothing.” It is an unfoldment from that which is potential to that which is actual that characterizes growth, development, evolution, or any label you may wish to give it.

Vitvan, The First Crossing, Page 104

“One can choose to go back towards safety, or forward toward growth. Growth must be chosen again and again; fear must be overcome again and again.

Abraham Maslow

Let the Dynamic Creative Force

Be Manifest

In my objective consciousness

As it is ever manifest

In the True Light Worlds.

Between stimulus and response there is a space. In that space is our power to choose our response. In our response lies our growth and our freedom.

Viktor Frankl

The key to growth is the introduction of higher dimensions of consciousness into our awareness. Lao Tzu

“Desire peace fervently. The peace you shall desire is that sacred peace which nothing can disturb, and in which the soul grows as does the holy flower upon the still lagoons.” Mabel Collins

How to Take the Journey

"If you are of an observing nature, you will find that bugs will not attack a healthy plant. But let it get sick, diseased or devitalized and watch the bugs attack the plant. You are the same; let your vital-dynamism go down and all of the 'bugs' will attack you. You don't pick up those bugs; you have them; you are full of them all the time. You are generating them because the disease germs represent the end products, the configurational end, of the creative force in the psyche.

It is not the germ that is communicated; that influence is communicated. Bugs and germs are off-side thinkings and off-side feelings (meaning off the natural order) and they have representation on the elemental level. The elementalistic organism is composed of them unless purified. Let the vital-dynamism wane and become weak and the bugs begin to work. So, we have a multiplicity of results in what is called projection or withdrawal.

What causes this projection of the psycho-dynamism and the psyche from the physiological organism? Sometimes keen disappointment. You hope and work and build up an ideal and it goes *flooey*; then you hope and build up another ideal and it does not come through; just plain discouragement manifests and you will begin to withdraw. Egotism will cause you to withdraw."

“It is only when disintegrating forces from within are allowed that there is any danger to a continuance, the growth and development of people in the Light.”
